

VectorJourneysStarter: key vocabulary

column vector	a vector written vertically with one number above another.
component	one of the numbers that make up a vector.
expression	a group of numbers and letters joined by operations, with no equals sign
negative	below zero; a number or term with a minus sign is below zero.
operation	Something done to a number, such as adding, subtracting, multiplying or dividing.
reverse	The same vector with every number changed to the opposite sign, so it points back.
sign	The plus or minus mark that tells whether a value is positive or negative.
tip-to-tail	A method for adding vectors by placing the point of one at the start of the next.
vector	a quantity with both size and direction
