

VectorsRacetrack: key vocabulary

column vector	a vector written vertically with one number above another.
directed path	a line with an arrow showing direction from one place to another
displacement	the straight-line distance and direction from a starting point to a final position.
endpoint	the point at which a route or line finishes
evaluate	to work out the value of an expression
expression	a group of numbers and letters joined by operations, with no equals sign
like terms	terms that have the same letter or letters, or no letter, so they can be added or subtracted together.
line segment	a straight part of a line that starts at one point and ends at another.
resultant	the single vector that has the same overall effect as adding two or more vectors.
simplified	to write something in its smallest or plainest form without changing its value
variable	a letter standing for a quantity that can change
vector	a quantity with both size and direction
